

**University of Oxford Botanic Garden and Harcourt Arboretum**  
**Seed List**  
**Seed harvested during 2008**

The following list represents seed available for exchange with other institutions working in the areas of research, breeding, conservation and education. We exchange on the following conditions:

1. The seeds are supplied for educational and non-profit making scientific purposes. If any financial gain is made from the plants grown from the seeds then that profit is subject to the spirit of the 1992 Convention on Biological Diversity.
2. The University of Oxford Botanic Garden would expect to be cited in any scientific papers resulting from research in which plants grown from the Garden's seeds are used.
3. The University of Oxford Botanic Garden reserves the right not to supply seeds that it considers might become pernicious invasive weeds if they were to escape from the confines of the receiving institution.
4. It is assumed by the University of Oxford Botanic Garden that the receiving institution will not order seeds of species that might escape from their garden and become invasive weeds. The final responsibility for deciding which species may become invasive remains with the receiving garden since the staff in that garden will have a better knowledge of local conditions than the Garden Staff in Oxford. The University of Oxford Botanic Garden accepts no responsibility for any ecological damage caused by plants raised from the seeds that it supplies.

The Garden recognises the classification system of the Angiosperm Phylogeny Group as published in *Bot. J. Linn. Soc.* 2003, 141399-436. This list is in keeping with our ongoing mission of offering quality seed in sufficient quantity and which has been properly identified. Our aim is to compile short seed lists, offering interesting and quality accessions of noteworthy species in order to ensure they remain a useful resource for botanical institutions. We will continue to focus on specialist collections held at the University of Oxford Botanic Garden and Harcourt Arboretum. As such, as an NCCPG Collection Holder of Hardy Euphorbia species, we intend our seed lists to contain a good representation of this taxon.

The seeds collected for the compilation of this list have been open pollinated and are being cultivated at the Garden both out of doors and under glass.

**Index Seminum 2008/2009**

	Taxa	Family	Accession No.	Verified
1	<i>Asimina triloba</i>	ANNONACEAE	1991205.1	yes
2	<i>Laserpitium siler</i>	APIACEAE	2003103.9	no
3	<i>Meum athamanticum</i>		2003103.10	no
4	<i>Corokia buddlejoides</i> var. <i>linearis</i>	ARGOPHYLLACEAE	1995176.5	yes
5	<i>Corokia cotoneaster</i>		1982027.1	yes
6	<i>Asphodeline lutea</i>	ASPHODELACEAE	0001945	no
7	<i>Aster albescens</i>	ASTERACEAE	1993075.4	yes
8	<i>Berkheya purpurea</i>		2004032.32	no
9	<i>Dahlia merckii</i>		2006010.3	yes
10	<i>Kalimeris incisa</i>		0004663	yes
11	<i>Lunaria rediviva</i>	BRASSICACEAE	0001699	yes
12	<i>Pachyphragma macrophyllum</i>		1992132.1	yes
13	<i>Codonopsis ussuriensis</i>	CAMPANULACEAE	2007108.10	no
14	<i>Canna brasiliensis</i>	CANNACEAE	2007081.9	no
15	<i>Dianthus henteri</i>	CARYOPHYLLACEAE	2006041.12	no
16	<i>Dianthus anatolicus</i>		2006053.1	no
17	<i>Lychnis flos-jovis</i>		1987199.2	yes
18	<i>Petrorhagia saxifraga</i>		2007002.6	yes
19	<i>Helianthemum apenninum</i>	CISTACEAE	2004120.9	no
20	<i>Alangium platanifolium</i>	CORNACEAE	1982173.2	yes
21	<i>Echinopepon wrightii</i>	CUCURBITACEAE	2004045.7	no
22	<i>Andrachne colchica</i>	EUPHORBIACEAE	2003054.5	yes
23	<i>Euphorbia altissima</i>		0000034	yes
24	<i>Euphorbia characias</i> subsp. <i>wulfenii</i>		1984097.1	yes
25	<i>Euphorbia glauca</i>		2003092.2	yes
26	<i>Euphorbia lucida</i>		1990097.1	yes
27	<i>Euphorbia marginata</i>		0004960	yes
28	<i>Euphorbia palustris</i>		2002122.1	yes
29	<i>Euphorbia palustris</i>		2002071.1	yes
30	<i>Euphorbia sikkimensis</i>		0000019	yes
31	<i>Euphorbia soongarica</i>		1989147.4	yes
32	<i>Euphorbia stygiana</i>		1987117.4	yes
33	<i>Euphorbia stygiana</i>		1998200.0	yes
34	<i>Euphorbia villosa</i>		1990040.1	yes
35	<i>Euphorbia villosa</i> subsp. <i>valdevilloscarpa</i>		2003108.5	yes
36	<i>Euphorbia</i> x <i>pasteuri</i> ( <i>E. mellifera</i> x <i>E. stygiana</i> )		0004816	yes
37	<i>Baptisia australis</i>	FABACEAE	0000594	no
38	<i>Piptanthus nepalensis</i>		0005814	yes
39	<i>Psoralea acaulis</i>		1998178.6	no
40	<i>Sophora microphylla</i>		0001177	yes

41	<i>Thermopsis lanceolata</i>		2002003.16	yes
42	<i>Wachendorfia thyrsiflora</i>	HAEMODORACEAE	2008093.3	no
43	<i>Hamamelis mollis</i>	HAMAMELIDACEAE	1965125.5	yes
44	<i>Dianella caerulea</i>	HEMEROCALLIDACEAE	2003076.0	no
45	<i>Dierama pulcherrimum</i>	IRIDACEAE	0004293	no
46	<i>Sideritis hyssopifolia</i>	LAMIACEAE	0000891	no
47	<i>Decaisnea fargesii</i>	LARDIZABALACEAE	0000979	yes
48	<i>Arthropodium candidum</i>	LAXMANIACEAE	2008107.9	no
49	<i>Tulipa turkestanica</i>	LILIACEAE	2001089.9	no
50	<i>Althaea cannabina</i>	MALVACEAE	2003054.4	yes
51	<i>Paris quadrifolia</i>	MELANTHIACEAE	0001013	yes
52	<i>Paeonia mascula</i> subsp. <i>arietina</i>	PAEONIACEAE	0000421	yes
53	<i>Paeonia mlokosewitschii</i>		0000426	yes
54	<i>Paeonia vetchii</i>		2006049.5	no
55	<i>Glaucium flavum</i>	PAPAVERACEAE	0000451	no
56	<i>Aquilegia chrysantha</i>	RANUNCULACEAE	1998056.19	no
57	<i>Beesia calthifolia</i>		2006049.4	yes
58	<i>Clematis recta</i>		1975056.1	yes
59	<i>Consolida ambigua</i>		2004045.11	no
60	<i>Thalictrum aquilegifolium</i>		0005886	no
61	<i>Acaena novae-zelandiae</i>	ROSACEAE	2008057.2	yes
62	<i>Ptelea trifoliata</i>	RUTACEAE	1989009.1	yes
63	<i>Idesia polycarpa</i>	SALICACEAE	1994139.12	yes
64	<i>Cardiospermum halicacabum</i>	SAPINDACEAE	2004078.5	no
65	<i>Acer griseum</i>		2000151.9	no
66	<i>Scrophularia grandiflora</i> subsp. <i>grandiflora</i>	SCROPHULARIACEAE	2008067.64	no
67	<i>Verbascum boerhavii</i>		2006109.2	no
68	<i>Datura stramonium</i>	SOLANACEAE	2004084.5	no
69	<i>Vestia foetida</i>		2007015.6	no

## Seed Request Form
